QUICKSTART GUIDE  
PC/MOBILE/CONSOLE

## PC/MAC SETUP

1. Plug A40 Inline Mute Cable into headset and computer.
2. Use PC Splitter as needed.
3. That's it. Game on!

## CONSOLE SETUP

### PS4 SETUP

1. Plug the end of the Headset Cable closest to the Mute Slider into the A40 TR Headset.
2. Plug the other end of the Headset Cable into the 3.5mm headset port on the PS4 controller.
3. That's it! Adjust PS4 console settings for Voice and Game volume. Your A40 TR and PS4 are ready to game!

### XBOX ONE SETUP

1. Plug the end of the Headset Cable closest to the Mute Slider into the A40 TR Headset.
2. Plug the other end of the Headset Cable into the 3.5mm headset port on the Xbox One controller.
3. That's it! Adjust Xbox One console settings for Voice and Game volume. Your A40 TR and Xbox One are ready to game!
3. If your controller has no headset port, we recommend adding an ASTRO MixAmp M60 or MixAmp M80.

### NINTENDO SWITCH SETUP

1. Plug the end of the Headset Cable closest to the Mute Slider into the A40 TR Headset.
2. Plug the other end of the Headset Cable into the 3.5mm headset port on the Nintendo Switch.
3. That's it! Volume is controlled directly from your Switch. Your A40 TR and Nintendo Switch are ready to game!
